Do you like GOOD Job Printing? We do it. Prices right.

It is money in your pocket to carry your account with The NATIONAL BANK OF COMMERCE. for they pay interest on daily balances, subject to check, at the rate of THREE per cent, computed and added to your account quarterly. They also pay FOUR per cent on time deposits.

Suicide of John Glass.

Last week, we briefly mentioned the suicide of John Glass, of Ottawa. This week, we re-publish the account given by the Ottawa Independent Journal:

John Glass committed suicide by hanging early Monday morning. The body was found in the barn at his home on south Main street. A short time ago, he was adjudged insane, and was being guarded by a deputy until final disposition of his case would be made.

Grant Bunyan was guarding him Sunday night, but at midnight, left him sound asleep. Some time thereafter, he went to the barn and took his life. The body was found by C. W. Brummett, detailed on guard duty in the daytime.

Bunyan says that Glass seemed perfectly rational Sunday evening, and hence, he thought it was safe to leave him alone. In fact, Mr. Glass seemed perfectly rational on everything except money matters. He brooded considerably over these. That he intended taking his own life was apparent from the fact that a razor was found on his person when the coroner's jury took the case.

Mr. Glass was 60 years old, and had been living in this county for 11 years. He is survived by his wife, Mrs. Harriett Glass, and two children, Mrs. Mabel Gell, of Belton, Mo., and John, a student of the University. All the family were here at the time of his death.

The funeral was held Tuesday afternoon, the services being conducted at the home by Rev. A. R. Maclean, of the First M. E. church. The choir of the First Presbyterian church sang. The interment was made in Highland cemetery. The pall-bearers were members of the A. O. U. W. A large number of friends attended.

Baking Economy.

By the use of a perfect baking powder the housewife can derive as much economy as from any other article used in baking and cooking. In selecting a baking powder, therefore, care should be exercised to purchase one that retains its original strength and always remains the same, thus making the food sweet and wholesome and producing sufficient leavening gas to make the baking light.

Very little of this leavening gas is produced by the cheap baking powders making it necessary to use double the quantity ordinarily required to secure results.

Manufacturers of cream of tartar powders ask about twice as much for their goods as that paid for any other baking powder, and food prepared from these cream of tartar powders contains large quantities of Rochelle Salts. Ask your physician what the results would be from the constant dosing of Rochelle Salts.

A baking powder that is recommended by leading physicians and chemists, and which is both perfect in quality and moderate in price, is therefore suggested—one that has been found to be "best by test"—"Calumet." From the standpoints of purity, wholesomeness and economy, there is nothing to excel it.

Food prepared with Calumet is absolutely free from Rochelle Salts, Alum, Lime, Ammonia, or any injurious substance.

List of Jurors.

Following is the list of jurors drawn for the June term of the district court:

J. D. Stevens, Reeder.
W. M. Hemrick, Jackson.
F. J. McDonald, Garnett.
James Sutton, Westphalia.

Magnificent Set Of New Wall Charts.

The most attractive premium offer of recent years is contained in the proposition made by The Republic St. Louis, Mo., to OLD AND NEW subscribers of the TWICE-A-WEEK REPUBLIC, the oldest established weekly newspaper in the West, and FARM PROGRESS, the great monthly farm and home journal, also published by the Republic.

To every person who sends \$1 to pay for one year's subscription (new or a renewal) to the TWICE-A-WEEK REPUBLIC (104 issues a year) and FARM PROGRESS, (the big monthly). The Republic will mail postage prepaid and securely packed a new accurate and complete set of wall charts, containing three great sheets, each 28x36 inches, with nine maps, as follows:

Map of the world; your choice of any of the following States: Missouri, Illinois, Arkansas, Kansas, Texas and Indian Territory and Oklahoma (the two last named on one sheet); a new map of the United States and up-to-date map of Alaska, the Philippines, Porto Rico, Hawaii, Panama and the canal and a topographic map of the Russo-Japanese war district.

Portraits of all the Presidents, from Washington to Roosevelt are also shown.

The home library wall chart contains a wealth of indispensable information, among the statistics being a complete index of the counties and towns of the State represented, money order Post Office, rural free delivery routes, railroad and express offices, electric lines, terminal or belt lines, banking towns, population of towns, of 3000 and over in the United States, a history and description of Panama; facts and figures of the officials and legislatures of the various States, number of killed and wounded, battles fought and other data of the Russo-Japanese war.

The chart is approved by school teachers, principals and superintendents everywhere. The regular selling price is \$2.50, but you get the chart FREE with a year's subscription to The Twice-a-week Republic and FARM PROGRESS, both of which will be sent to any address or to separate addresses for \$1 a year.

The Twice-a-week Republic was established in 1808, and is therefore one of the oldest newspapers in the country. More than a half a million readers attest its merits as a great semi-weekly journal.

FARM PROGRESS contains 10 standard-size newspaper pages each issue, filled with the best farm information, live stock, poultry, gardening, horses and mules, cattle, dairy and other agricultural departments: pictures, puzzles, poems, stories, choice fiction, fashions, domestic articles and a host of other valuable information.

This offer is limited to 60 days. In ordering, specify which State map is desired.

SHERLOCK HOLMES AGAIN.

A New Series of Detective Stories in the Kansas City Star.

Conan Doyle's detective stories, with the marvelous Sherlock Holmes as their hero, have achieved the greatest success of recent years. Appreciating this fact the publisher of Collier's Weekly, New York, induced Mr. Doyle to write a final series of the great detective's adventures. Repeated refusals were followed by increased inducements, and finally Mr. Doyle agreed to write thirteen stories for \$45,000, or about 60 cents a word. The entire correspondence was by cable. The amount paid by Collier's is the largest ever paid for such work and does not include the right to publish the stories in book form. By special arrangement with Collier's these famous stories are being printed in the Kansas City Star, one story each week, beginning in the daily edition, Saturday, February 11, and in the weekly, Wednesday, February 15. None of the present popular features of The Star will be cut down or omitted to make room for this remarkable set of stories. Practically the contents of a \$1.50 book will be added to the contents of The Star, in three months, without any increase of the subscription price, 10 cents a week for The Daily Star (morning, evening and Sunday, 13 complete payers a week), and 25 cents a year for The Weekly Star.

PARKER'S HAIR BALM
Glosses and beautifies the hair. Promotes a luxuriant growth. Never Fails to Restore Gray Hair to Its Youthful Color. Cures scalp diseases, hair falling, itching, and dandruff.

WHAT THE International Correspondence Schools OF SCRANTON, PA.

Are Doing for Technical Education

There are many people throughout the country who know in a general way that the International Correspondence Schools are carrying on a great educational work and they approve it, but they do not know the exact nature of that work.

THE FOLLOWING STATEMENT WILL SERVE TO EXPLAIN:

Our Work

Our work is to gather technical knowledge from all quarters of the industrial world; arrange it into special courses for special classes; and impart it to all ambitious of advancing.

TO GATHER THIS KNOWLEDGE and classify it we maintain our Faculty and intermittently employ the foremen, superintendents, managers and engineering experts of many of the leading industrial establishments. TO DISPENSE IT, we have our Field Organization for explaining the peculiar advantages of our different

Courses to the prospective student and our Corps of Instructors for guiding him after he enrolls. There are three phases of our work:

1—We teach unemployed people the theory of the work they want to engage in. RESULTS: positions easily secured; days of drudgery shortened, and sometimes avoided altogether; quick promotion.
2—We teach employed people to do their work better. RESULTS: more responsible positions; better pay.
3—We teach dissatisfied people how to do what is congenial to them. RESULTS: preparation for new work before leaving the old; rapid progress in the new field.

Our Plan

Our plan embodies the following distinctive features: 1—We furnish all necessary preparatory instruction. 2—We provide drawing instruments and experimental apparatus with each course requiring them.

3—We explain facts, principles and processes so clearly that the student quickly comprehends and remembers them. 4—We illustrate our instruction with all views, plans, sections and elevations that will contribute to its clearness. 5—We give concise rules and practical examples showing their application. 6—We grade our instruction so that at no stage of his progress is the student confronted with insurmountable difficulties. 7—We criticize and correct our student's written recitations, and send him special advice regarding his course whenever necessary.

Some Interesting Facts and Figures

We employ about 3,200 people.
Our mailing department handles about 15,000 pieces of mail every day.
We use about \$400 worth of postage stamps daily.
Last year we issued about sixty-three million (63,000,000) pages of instruction.
Twelve years ago we had only one course of instruction and enrolled our first student. We now have 152 courses and about 600,000 names on our roll.

Send for Further Particulars
